PROFESSIONAL SUMMARY

Full-stack Web Developer with hands-on experience developing, maintaining, and optimizing web applications using Next.js, React, TypeScript, Tailwind CSS, Supabase, MongoDB, and REST APIs. Experienced in building responsive user interfaces, integrating APIs, implementing authentication flows, handling system data, debugging website issues, and improving performance, SEO, and user experience. Familiar with internal system support, technical troubleshooting, reusable component development, monorepo workflows, and AI-assisted development for improving engineering productivity.

WORK EXPERIENCE

STI Technology Solutions

Front-end Developer | Jun 2025 - Present

- Developed responsive web applications using Next.js, React, TypeScript, and Tailwind CSS.
- Converted Figma designs into pixel-perfect, reusable UI components.
- Integrated REST APIs with authentication, error handling, loading states, and form validation.
- Optimized page performance, SEO metadata, and responsive behavior across desktop and mobile.
- Collaborated with backend developers, designers, and stakeholders in an agile development workflow.

Riovina Technology Company

Technical Support | Dec 2024 - Jun 2025

- Provided technical support for internal systems, websites, and software tools.
- Troubleshoot website issues, reported bugs, and coordinated with development teams for resolution.
- Managed software updates and supported users with system configuration and issue tracking.

EDUCATION

BTEC FPT College

PEARSON BTEC Diploma

- Pearson BTEC Diploma | GPA: 3.4/4.0 | 2021 - 2024
- Achievements:** Excellent Student Certificate - English Subject, BTEC FPT, Summer 2022

TECHNICAL SKILLS

Front-end

React, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Design, SEO, PWA

Backend & Database

Node.js, Supabase, MongoDB, REST APIs

State/Data Fetching

Redux Toolkit, RTK Query, React Query, SWR, Zustand

Tools & Workflow

Git, GitHub, Figma, pnpm, Vercel

Languages:

JavaScript, TypeScript, HTML5, CSS3

AI Tools

Prompt Engineering, MCP Servers, AI-assisted development workflows

PROJECTS

GemX / GFI Research

Front-end Developer

- Developed a crypto research and investment platform using Next.js, React, TypeScript, Redux Toolkit, React Query, Tailwind CSS, and WebSocket APIs.
- Built responsive modules for asset screening, portfolio tracking, trading bots, NEAR staking, wallet flows, and SEO-optimized research content.
- Tech Stack: Next.js, TypeScript, Tailwind CSS, Redux Toolkit, React Query, Axios, near-api-js.
- Live Demo: [GemX / GFI Research](#)

Techcombank The NextX

Front-end Developer

- Built frontend features for a multi-tenant EdTech SaaS platform using Next.js, React, TypeScript, Tailwind CSS, Turborepo, and shared monorepo packages.
- Developed reusable UI and dashboard modules for course learning, wallet, blog, authentication, referral, schedule, admin, and AI workspace flows.
- Integrated REST APIs with SWR, authenticated fetch utilities, token refresh, responsive UI, React Hook Form/Zod, i18n, and multi-tenant theme rendering
- Tech Stack: Next.js, TypeScript, Tailwind CSS, SWR, Zustand,...
- Live Demo: [Techcombank The NextX](#)

BTrade

Full-stack Developer

- Built a responsive marketplace platform with product listings, seller dashboard, cart, order flow, authentication, and user profiles.
- Implemented Supabase authentication, protected routes, media uploads, and session handling.
- Developed real-time messaging, notifications, and presence tracking using Socket.IO.
- Delivered mobile-first PWA experience with service worker support, offline-aware states, and pull-to-refresh behavior.
- Tech Stack: Next.js, TypeScript, Tailwind CSS, Redux Toolkit, RTK Query, Supabase, Socket.IO, PWA
- Live Demo: [BTrade](#)
